

*Flowers From Los Angeles*

David Horvitz

In the surrounding communities:

Find either a street flower vendor or a small local floral shop.

Buy a single flower (actually two).

Continue wandering around the neighborhood, stopping at other floral shops and street flower vendors. Purchase the same flower (two) you had bought at the first place at each new place.

Continue until you have a handful of the same flower purchased from different local vendors. Somewhere between 6 - 15.

Put them all together in a single vase and leave at museum.

Make a duplicate copy and leave at LACE.
